

## Stay&Play Doggie Daycare Schedule

### **Pack Of The Day Introductions 7:30-8:30am**

Dogs are dropped off and slowly introduced to their fellow furry friends in similar energy play groups.

#### **Outside Time 9:00am**

A dogi gotta go when a dogi gotta go! Also, a great time to enjoy & explore our three play yards!

#### **Skill Building 11:00am-12:00pm**

At this time, we will play more challenging games to provide the proper mental stimulation for your dog. Basic commands and tricks are a good way to start. We may also use this time to brush out their coats.

#### **Doggy Lunch 12:00pm**

When provided, dogs are fed lunch around this time.

#### **Nap Time 12:30pm**

With all the excitement of the morning, nap time becomes a very important part of a dogi day. This time gives them the chance to recharge and stay balanced for the rest of the day.

#### **Outside Time 1:30pm**

A good way to burn off lunch is to run around in the sun!

#### **Play About 2:00pm-5:00pm**

Playing fetch, chasing each other and chasing us!

#### **One-On-One Time 3:00pm**

Each dog gets some time away from the pack to bond more with their handler. At this time they will get belly rubs, massages, hugs, and kisses!

#### **Outside Time 5:00pm**

We love enjoying beautiful evenings outside in the yard!

#### **Winding Down 5:30pm**

An excited dog can make for a stressful car ride home. We use this time to reduce excitement and to send them home calmly and safely.

#### **Pack Of The Day Goodbyes 5:30pm- 6:30pm**

One by one, parents or sitters come to pick up their furry family member to spend the rest of the evening at home.
